## Measurement

| Comparing and Estimating |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Pre-school | Reception | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| Make comparisons between objects relating to size, length, weight and capacity | Compare length, weight and capacity | compare, describe and solve practical problems for: <br> *lengths and heights [e.g. long/short, longer/shorter, tall/short, double/half] *mass/weight [e.g. heavy/light, heavier than, lighter than] *capacity and volume [e.g. full/empty, more than, less than, half, half full, quarter] *time [e.g. quicker, slower, earlier] | compare and order lengths, mass, volume/capacity and record the results using $>$, < and = |  | estimate, compare and calculate different measures, including money in pounds and pence <br> (also included in Measuring) | calculate and compare the area of squares and rectangles including using standard units, square centimetres ( $\mathrm{cm}^{2}$ ) and square metres ( $\mathrm{m}^{2}$ ) and estimate the area of irregular shapes (also included in measuring) estimate volume (e.g. using $1 \mathrm{~cm}^{3}$ blocks to build cubes and cuboids) and capacity (e.g. using water) | calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm ${ }^{3}$ ) and cubic metres ( $\mathrm{m}^{3}$ ), and extending to other units such as $\mathrm{mm}^{3}$ and $\mathrm{km}^{3}$. |
|  |  | sequence events in chronological order using language [e.g. before and after, next, first, today, yesterday, tomorrow, morning, afternoon, evening] | compare and sequence intervals of time | compare durations of events, for example to calculate the time taken by particular events or tasks <br> Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Telling the Time) |  |  |  |

|  |  |  |  |  | recognise and use square numbers and cube | and extending to other units [e.g. $\mathrm{mm}^{3}$ and $\mathrm{km}^{3}$ ]. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  | numbers, and the <br> notation for squared ( ${ }^{2}$ ) <br> and cubed ( ${ }^{3}$ ) <br> (copied from <br> Multiplication and <br> Division) | recognise when it is possible to use formulae for area and volume of shapes |
| Telling the Time |  |  |  |  |  |  |
| Begin to describe a sequence of events, real or fictional, using words, such as 'first', 'then...' | tell the time to the hour and half past the hour and draw the hands on a clock face to show these times. | tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times. | tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks | read, write and convert time between analogue and digital 12 and 24 -hour clocks (appears also in Converting) |  |  |
|  | recognise and use language relating to dates, including days of the week, weeks, months and years | know the number of minutes in an hour and the number of hours in a day. <br> (appears also in Converting) | estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Comparing \& Estimating) | solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Converting) | solve problems involving converting between units of time |  |

| Converting |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | know the number of minutes in an hour and the number of hours in a day. <br> (appears also in Telling the Time) | know the number of seconds in a minute and the number of days in each month, year and leap year | convert between different units of measure (e.g. kilometre to metre; hour to minute) | convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre) <br> Convert between units of measure, including using common decimals and fractions. | use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit to a larger unit, and vice versa, using decimal notation to up to 3 decimal places |
|  |  |  |  |  | read, write and convert time between analogue and digital 12 and 24hour clocks (appears also in Converting) | solve problems involving converting between units of time | solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (also in Measuring and Calculating) |
|  |  |  |  |  | solve problems involving converting hours to minutes; minutes to seconds; years to months; weeks to days (also in Telling the Time) | understand and use equivalences between metric units and common imperial units such as inches, pounds and pints | convert between miles and kilometres |
|  |  |  |  |  |  | solve problems involving the 4 operations and a combination of these, including understanding the meaning of the equals sign |  |
|  |  |  |  |  |  | solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates | solve problems involving similar shapes where the scale factor is known or can be found (copied from Ratio and Proportion) |
